

TYVEK® STERILIZATION REELS & POUCHES

FIBRE FREE-TEAR FREE
CLEAN PEEL

*Tyvek® is a registered trademark of Dupont

Tyvek is a rather unique material in the stable packaging materials classification.

Tyvek is known for its outstanding strength, durability and tear resistance.

As well as industrial use for EO and Gamma sterilization, Tyvek is also used for Gas Plasma sterilization at hospitals.

Accurate indicator shows a clear color change from yellow to blue. Compatible with all Low Temperature Hydrogen Peroxide sterilization systems. Easy to seal with old sealers. Wide sealing temperature window.
